

WE ARE BUILDERS DATA DRIVEN. EXPERIENCE INFORMED.

WE START & END WITH SAFETY

The safety and well-being of our employees is the most important responsibility that we have as a company. We ensure our employees return home the same way they left, unharmed.

By involving our safety department while developing our estimates, our safety plan is formed day one and utilized through to the last day of the project, in a predictive safety environment.

GrayWolf's industry leading practices coupled with proprietary tracking tools provide project-based dashboards so our teams can identify potential hazards from leading indicators before they create accidents.

OUR GOAL IS TO ELIMINATE ALL WORKSITE INCIDENTS.

WE ARE BUILDERS FIRST

From nearly half a century of being builders, we understand that the traditional construction model fractures shared knowledge and a project's continuity. We believe there is a better way.

THE NEXT GENERATION IN PROJECT DELIVERY

We are a world leading construction company that provides solutions for your asset's lifecycle from design through to fabrication, construction and facility management.

By integrating and leveraging both the construction and technology expertise held across our family of companies, we are uniquely positioned to deliver a de-risked end to end solution to both industrial and commercial construction markets.

Building upon a foundation of world class technologies and model-based workflows we manage the evolution and utilization of critical data from early design through to an operating asset. WE HELP OUR CLIENTS ACHIEVE PROJECT DELIVERY CERTAINTY

GrayWolf is a premier structural steel, industrial construction and maintenance provider.

Our end-to-end capability allows us to inform project execution strategies that optimize how projects are delivered that eliminate waste and risk typically experienced in the transition between design to construction and construction to operations.

Our clients depend on us for our ability to complete projects safely and on time, with the highest quality.

PRECONSTRUCTION

- + Digital Engineering
- + Modeling & Detailing Services
- + Estimating
- + Design Assist
- + Scheduling, Budgeting and Project Controls
- + Constructability Planning+ Complex Logistics Planning
- + Procurement

FABRICATION & MODULARIZATION

- + Structural fabrication
- + Pipe racks
- + Modularization of large assemblies
- + Plate fabrication
- + Pipe spools
- + Equipment skids
- + API & ASME vessels

CONSTRUCTION

- + Sitework / civil
- + Concrete
- + Steel erection
- + Equipment setting
- + Field erected tanks & vessels
- + Piping
- + Electrical & instrumentation
- + Specialty construction (HRSG, boilers, ACC's)

FACILITY SUPPORT

- + Facility management
- + Plant turnarounds
- + Plant outages
- + Nested maintenance
- + Mission critical

OUR COMMERICAL AND INDUSTRIAL EXPERTISE SPANS MULTIPLE ESSENTIAL AND EMERGING MARKETS

- Biomass
- + Chemicals
- + Commercial
- + Convention & Event Centers
- + Data Centers

+ Energy
+ Government
+ Healthcare
+ Leisure
+ Manufacturin

⊧ Metals & Mining ⊧ Oil & Gas ⊧ Pulp, Paper & Wood ⊧ Renewables ⊧ Water

ON AVERAGE, OUR CLIENT RELATIONSHIPS ARE 15+ YEARS STRONG, COLLABORATING ON DOZENS TO HUNDREDS OF PROJECTS, DELIVERED IN MULTIPLE STATES.

"

The team at GrayWolf provided Western Kentucky Energy/ Big Rivers with safe, reliable and quality workmanship...Their full time on site presence helped us staff for major outages and ensure deadlines were safely met on time and on budget. The supervision and craft team provided by GrayWolf consistently demonstrated the 'get it done' attitude'.

 Robert W. Berry, VP Production, Big Rivers Electric Corporation

"

GrayWolf is committed to achieving excellence with ontime schedule, quality of service and innovation towards [their] customers & suppliers.

 Larry Stevens, Head of Construction & Commissioning, ALSTOM Power Environmental Control Systems

A RARE COMBINATION OF MULTI-DISCIPLINE & STRUCTURAL STEEL UNDER ONE ROOF

Our fabrication capabilities span heavy fabrication, structural fabrication, large plate, duct, tank, vessel and modularization requirements.

Our footprint is strategically close to water ways and heavy haul truck routes to easily serve project locations while reducing our carbon footprint.

1978 Established

8 Offices

Sqft Under Roof*

10,000+ Available Craft Labor

5000+

Completed projects in the last 10 years

*Total footprint of all companies

WE STAY AHEAD OF EMERGING DEMANDS IN OUR INDUSTRY

Our approach focuses on interconnecting our construction experience with the design process so we can dramatically reduce risk through every phase of an asset's lifecycle, from concept to completion.

A project is at risk when the delivery model is based around the traditional phases without considering what happens in the transition between each. Different from traditional construction firms or design firms, our integrated approach mitigates project delivery risk while ensuring consistently high quality, in a safe environment.

ADVANCED TECHNOLOGIES THAT SUPPORT YOUR PROJECT LIFE CYCLE

Leveraging advanced technologies, our end-to-end services solve complex project challenges while achieving significant efficiencies.

LEVERAGING INTELLIGENCE IN PROJECT MODELS

Using predictive technologies and smarter processes, we envision the entire project lifecycle. This enables our cross-functional teams to positively influence its outcome by informing critical design decisions that optimize total material, fabrication and construction costs by leveraging our:

- + Proven technologies & processes
- + Fabrication & erection capabilities and capacity
- + Experience in heavy industrial services
- + Operations and maintenance expertise

Select examples of our model-based workflows:

- + Constructability planning
- + Schedule & model integration
- + Clash & issue resolution
- + Modeling for fabrication, installation & maintenance
- + Modularization
- + / Model-based work packaging
- + Digital work instructions
- + Laser scanning & back modeling
- + Digital twins

THIS HOLISTIC VIEW ENSURES PROJECT DELIVERY STRATEGIES THAT OVERLAP ALL PROJECT PHASES, ULTIMATELY MITIGATING RISK WHILE EXPEDITING SCHEDULE.

AS A PARTNER, WE'RE HERE TO BE YOUR RESOURCE AND ANSWER ALL OF YOUR QUESTIONS

Invite GrayWolf to join your team early in the process to gain visibility and de-risk your project with our end-to-end expertise.
